F DOLLAR A YEAR.

No 5

Elba, Route 1.

Editor Clipper:

Please allow me space in your paper for a few lines from this corner of the woods. There is some sickness in this community. Mrs. W. J. Floyd is quite sick. Uncle Mack Rushing and wife are also quite ill.

The good people of Bluff Springs met Sunday morning and had a good sacred harp sing. After singing the congregation heard a good sermon by Rev. C. O. Helms.

The people's hearts were made glad Sunday afternoon by a good rain, although the accompanying wind storm did considerable damage to the growing crops. The wind blew down a lot of timber and also wrecked the colored people's church at Shady Grove.

The farmers were glad to get the rain for corn crops was growing shatter every day.

Well, let us hear from other writers—it makes good reading to hear from our neighbors and know what is "going on" over the country.

New Comer.

Brocklyn News.

We are glad to state crops are doing fairly well since the showers. Misses Naoma and Lessie King visited the Misses Rhodes Sunday. Miss Nemo is visiting relatives at Troy this week.

Profs. Sasser and Taylor of Andalusia have returned to finish their school which was vacated in the spring. We have a fine school. We wish to invite everybody to attend our patrons day, the 7th of July. Supt. Byrd, Enterprise, and Bozeman of Andalusia will be present and probably others, who will make the day very interesting.

A good many of our young folks attended the masonic celebration at Florida the 24th and report a happy time.

Mr. Elmore Clark and John Redmon visited the Misses Whitman, of Pine Level, last Sunday. Miss Bertie Clark spent a very pleasant afternoon with Miss Ollie Jones this week.

Miss Charlie Leonard has returned from Montgomery and is improving rapidly.

Mr. and Mrs. A. F. Jones spent last Sunday with their daughter Mrs. Jeff Morris, where they enjoyed themselves eating cream.

Miss Cynthia Grimes of Curtis spent last week with her sister, Mrs. Redman.

Fulton Clark and Jones think they can no longer stand to be called their mamas' baby boys, as both have a new run-about buggy.

We are glad to say our Sunday school is doing well since the arrival of our former president, T. W. Taylor.

School Notice.

On the 4th of August next, the Coffee County Board of Education will meet at Elba, at 8:00 o'clock A. M. At this meeting the Board will pass on creating new districts lines. Parties interested will please notice section 1691 of the Code of 1907.

Judge of Probate.

Illicit Stills Raided.

Samson Ledger.

Deputy United States Marshal W. F. Nabors, of Mobile, assisted by Messrs. Tom Alford and G. W. Johnson, of this place, on Tuesday found and destroyed an illicit still belonging to Charlie Hall, who lives west of Pink in Coffee county. Hall was arrested.

On Wednesday the same officers captured and destroyed another illicit still belong to Jeff Pridgen, who lives near Hacoda and just over the line in Covington. Sixty gallons of beer were confiscated and poured out at this still, but no moonshine was found.

Two Crops a Year On All Land.

In the Cotton Belt two crops a year on all land is possible, practicable under a proper system of farm management; and while some may not be able to attain such intensive cropping. It should be the aim of every ambitious farmer.

Perhaps the one reason most frequently advanced for failure to plant the oat and wheat lands in some legume catch crop is the difficulty in preparing the land. There is need for good management at this point, for the difficulty is a real one. The corn and cotton crops are usually demanding the attention at this time, and while the seeming scarcity of men could be overcome by the use of larger and better implements, the horse power is still lacking. Moreover, when the oats and wheat are cut the land soon becomes hard and difficult to put in good condition for seeding to the catch crops. All of these difficulties under our system of farm management are real and serious ones; but the advantages of keeping the land growing a crop all the time are too great to justify a failure to solve these difficulties.

In the first place it is certain that these lands should be prepared and seeded as soon after the oats and wheat are cut as possible. This is important because the sooner catch crops are planted the better for them and the sooner the land is prepared the more easily it can be done. If these crops could be removed as soon as cut the difficulty would be largely solved, but they must be shocked and left to dry for some time, and this is the chief obstacle to prompt and easy preparation of the land for catch crops.

Again, when the land is broken there must be no delay in using the disk and smoothing harrows, and the roller or other clod crusher, when necessary, to thoroughly pulverize the land before the clods or lumps have had time to dry out and become so hard that thorough pulverization is impossible. Land that breaks up in lumps may usually be well pulverized if it is disked and harrowed immediately after being plowed, but if these lumps are allowed to dry even for a few hours on a hot, dry day, it may be impracticable to pulverize them until heavy rains come.—Starkville, (Miss.) Progressive Farmer.

Kill More Than Wild Beasts.

The number of people killed yearly by wild beasts don't approach the vast number killed by disease germs. No life is safe from their attacks. They're in air, water, dust, even food. But grand protection is afforded by Electric Bitters which destroys and expels these deadly germs from the system. That's why chills, fever and ague, and all malarial, and many blood diseases yield promptly to this wonderful blood purifier. Try them and enjoy the glorious health and new strength they'll give you. Money back if not satisfied. Only 50c at Harp Drug Co.

HAIR STORM

Does Severe Damage Near Bullock Monday.

Monday there was in the eastern portion of the county a good deal of hail, and at one place about one and a half miles east of Bullock, the hail was severe. On the farm of Mrs. Tom Marler and on adjoining places the crops were destroyed, our information being that over a small scope the hail was about as severe as it was in East Coffee seven years ago.

New K. of P. Officers.

At the regular meeting of Riverside Lodge No. 150, K. of P., last Tuesday night, the following officers were elected:

J. B. Amos, C. C.
C. R. Talbot, V. C.
D. P. Lee, P.
J. O. Rowe, M. of W.
V. J. Elmore, M. of F. & K. R. S.

L. C. Powell, M. of Ex.
S. H. Brock, M. at A.
J. W. Blocker, I. G.
W. T. Whitman, O. G.
J. F. Esagin, M. A. Owen and B. S. Ham were elected as delegates to the district convention at Pinckard July 29-31.

Some Preservatives You Should Not Use.

Frequently requests come to us for information concerning preservative treatment for certain foods, meats, vegetables, etc. Not infrequently our subscribers add personal experiences with these preservatives, recommending them to others. Recently a letter was received advising a treatment of sulphur smoke for skippers in meat. Every housewife should familiarize herself with the recent findings of the food experts in the National Bureau of Chemistry. After repeated experiments with the many preservatives, such as borax, sulphur, saltpeter, alum, etc., it was found that all of these chemicals had a more or less harmful effect upon the bodily organs, the liver, stomach, kidneys, heart. From this investigation certain laws were enacted which prohibit the use of these chemicals in all foods put up for market. This law prohibits the use of all preservatives except salt, vinegar, wine, wood smoke, sugar, spices and their essential oils and alcohol, except in confectionery. The housewife who uses these other preservatives takes an enormous risk and the health of the family is always in danger when such practice is in use in the household.—Starkville, (Miss.) Progressive Farmer.

Have You Ever Taken Calomel.

Next Time Don't Do It. It's Dangerous. Try Dodson's Liver-Tone Instead—It's Safe.

You ought to know what a dangerous and uncertain drug the chemical, calomel, is. Perhaps you know several people who have been salivated by what they thought was a very light dose of calomel.

Next time you have an attack of biliousness, or when your liver has gotten sluggish, come to Elba Drug Co. and ask for a bottle of Dodson's Liver-Tone. You will find it a pleasant tasted liquid and perfect substitute for calomel in every respect and without the dangerous after-effects of calomel.

Dodson's Liver-Tone gives the liver just the amount of gentle stimulation it needs to induce it to do its work properly and thoroughly. Elba Drug Co. will give you money back any time Dodson's Liver-Tone fails to prove itself a perfect substitute for calomel.

Re-Hearing Denied.

Samson Ledger.

The Mizell faction won what is probably a final victory Tuesday in the contest over who are the legally elected municipal officers of the town of Samson when the Supreme Court overruled the application for a re-hearing of the case recently applied for by the attorneys for the Holloway faction.

It will be remembered that the Supreme Court handed down a decision a few weeks ago confirming the legality of the election of Frank J. Mizell as mayor and B. P. McDuffie, Jr., J. G. Maloy, O. J. Angle, T. A. Hendrick and G. W. Canant as council. A re-hearing was immediately asked for, the result of which was as above stated.

Now Is The Time To Get Busy.

The danger to health from the honey-fly has been studied by scientists, has been exploited by physicians, has been discussed by entomologists, has been acted upon by boards of health in our cities, has been considered by all kinds of societies and organizations, but little of the agitation has found its way into the country districts. The fly problem is one which the farm man and the farm housewife must of necessity work out together. I know a man who made screens for his home last season—two doors and four windows complete, well made, well hung, all at a cost of \$1.25. His near-by neighbor in an unscreen house, had a case of typhoid fever in the home which cost the family \$300, not to mention the suffering, anxiety and fatigue which a long serious illness means to the entire family. Because the fly has been found to be an important factor in the spread of typhoid fever, it has been fittingly termed the "typhoid fly." It might be called the "tuberculosis fly" or the "diphtheria fly" because it picks up these germs and carries them into our homes. There is an enormous increase in the death rate of children from diarrheal diseases during the summer months. The fly is responsible for it. A single fly speck may contain 3,000 germs. Have you thought seriously of the expense of disease and drudgery to a family, to a community? How often have we in blindness regarded an epidemic of disease in our families in the community as a cruel manifestation of Providence when the means of control lay easily within our power.—Mrs. F. L. Stevens, in Starkville, (Miss.) Progressive Farmer.

It has been said that the civilization of a community can be estimated by the quantity of soap it consumes. It is practically the same thing as saying that the refinement of a household is measured by the amount of water it uses. Dr. L. H. Bailey, in writing upon the subject of water supplies for farm homes, says: "The first thing I would now do for the farm house is to put in sanitary water-works for the care and comfort of the person. Nothing would so soon elevate the home ideals."—Starkville (Miss.) Progressive Farmer.

Ed. Clipper.

This community enjoyed seeing a "gracious" Sunday. Miss Arkey Dyess has returned from Enterprise where she has been attending the teachers' review.

Miss Myrl Bryan entertained a number of young people at her home Saturday night. The entertainment was very much enjoyed.

Mr. Jim Johnson will carry a number of people from beat 5 to the singing at New Home the 4th of July.

The singing society met at Bluff Springs Sunday. J. W. Johnson, the chairman, led the class in two or three songs, and then the following led: Jim Johnson, J. W. Lewis, Mr. Willis and Rev. C. O. Helms. After singing a recess was given, after which Rev. C. O. Helms preached an able sermon. It was announced that a series of meetings would be held at that church commencing the fifth Sunday in July. Revs. Loflin and Johnson will assist the pastor.

Get Full Pay For Your Labor.

You are competing with every other man handling your line of farming, and you will be obliged to do more work for the same pay if you allow him to make use of better tools and team-power than you use.

This applies especially to men in the same section of the country. If I allow my neighbor to use a cultivator in the making of his corn crop, that will enable him to do 50 per cent more in ten hours than I can do with my less efficient tool, I am in effect taking just half for my work what he is receiving. If he uses a six-foot mowing machine to cut his hay while I use a four-foot machine, he is receiving just 33 1-3 per cent more for his time while riding the mower than I receive. If he fits his land with a disk harrow that works a strip four feet while I fit mine with a double shovel that works only one foot, his human labor amounts to just five times what mine does, so that to accomplish the same results, he can take out at 10 o'clock in the forenoon and go fishing and still accomplish as much as I can if I work until sundown.—A. L. French, in Starkville (Miss.) Progressive Farmer.

More than 200 representatives of colleges and universities of the country are at Pittsburg, Pa., as delegates to the annual convention of the Society for the Promotion of Engineering Education which opened this morning.

Tuscaloosa, Ala., has, by a vote of 12 to 1, declared in favor of commission government and the Alabama general law. The commissioners will be appointed by Governor O'Neal.

A CHAPTER OF CASUALTIES. Captain David Harrison Claxon, for many years a steamboat pilot and captain on the Kentucky, Cumberland, Ohio and Mississippi rivers, died at Louisville, Ky., aged 82. During the civil war Captain Claxon, an ardent southern sympathizer, served as pilot on several steamships when Confederate troops were being transported on southern rivers. He retired about eighteen years ago, his last service being as commander of boats plying between Cincinnati and Louisville.

Six negro deck hands were killed, fourteen were probably fatally hurt, ten others more or less seriously injured, Chief Engineer F. H. Morgan was severely scalded, Captain Charles Price was painfully cut and bruised and other members of the crew and passengers were slightly hurt when a huge collapsed and the boiler aboard the Mississippi river packet City of St. Joseph exploded while the steamer was in midstream opposite President's Island, six miles south of Memphis.

ELBA, ALA., JULY 4, 1911.

The Elba Clipper hits Gov. O'Neal a right hard lick about his insistence that he be allowed to name commissioners for the towns that adopt commission form of government in Alabama. The Weekly says it was an attempt plain and simple to build up a political machine. If it was it will be fruitless. Machines have not prospered in Alabama.

The trustees of the University indicate that they believe that that institution should have a wider field of usefulness. There was no bitterness or partisanship manifested in the recantation of President Abernethy's resignation. The trustees seem to be anxious to do what is best for the institution. We are glad to see this disposition on the part of the trustees. Readers of this paper will recall that from time to time in the past four years there has been a good deal said on this subject. We do not know that the removal of President Abernethy was wise. But we do know that the fact that the trustees show a realization that improvements are needed at the institution is a hopeful sign. We sincerely hope that the University may attain a broad and elevated usefulness.

Curiosity caused Theodore Elser, 8 years old, and his brother, Robert, 10 years old, of Kansas City, to move the metallic taps from five gas line tanks in an eight compartment of their father's tailor shop. When their uncle, Edward Elser, entered the room a few minutes later, Theodore was dead from breathing the fumes, and Robert was barely breathing. Both were lying face downward in the liquid, which covered the floor to a depth of several inches. Playing with a pistol they had taken from a shelf in their father's store, Ruth Harwell, 9 years old, was accidentally shot and instantly killed at Meridian, Miss., by Lola Harwell, her 14-year-old sister. The father of the children, with J. Harwell, was in the front of the store and when he heard the shot, ran to the rear of the building, where he found the little girl dead, a bullet having entered her head.

Princess Clothilde, widow of Prince Napoleon Bonaparte, who was killed named "Pion-Pion" on account of supposed cowardice in the Crimean war, died at Turin, Italy. She was an aunt of King Victor Emmanuel. Her sister, the Queen Mother Maria Pia, of Portugal, her sister-in-law, Dowager Queen Margherita, of Italy, and her children, including the pretender, Prince Victor Napoleon, were present at the time of her death.

Pension Notice.

The Pension Board for Coffee County will meet in Elba on the first Monday (July 3), and be in session for one week; at Enterprise the second Monday (July 10) and hold for one week. All pensioners over 70 years of age will be placed in the second class, with property qualifications raised to \$2000. All widows of Confederate veterans are placed in the third class. There are now but three classes, while heretofore there were four.

NEW HOTEL PLANNED.

Three-story Brick Structure Will be Well Equipped.
Another hotel is to be erected in Jacksonville, a permit having been issued to C. T. Doty, for the construction of a three-story brick building at the corner of Adams and Washington streets. The hotel will have about thirty rooms, ten on each floor, with private baths and all modern improvements. The ground floor will be constructed to allow of six store rooms. The proximity of the new building to the corner of Adams and Washington streets, will make the hotel a favorite with travelers. A five-story brick and reinforced concrete building will represent a cost of about \$20,000 and will be constructed in an up-to-date manner. Work on the corner building will commence in a short time, and before the next winter season it will be ready for use. The construction of the two buildings mentioned above is in keeping with the growth of the city and the trend of business men to take advantage of the demand for new structures outside of the old business district, which formerly comprised but a few city blocks.

BIG BARGE EXPLODES.

Damage to Property is Estimated at \$150,000—Houses Caught Fire.
An explosion which occurred aboard the barge Gumble in the harbor at Port Arthur, Texas, caused the death of one man and the destruction by fire of \$150,000 worth of property. The explosion was felt for several miles. Three barges, a tug and three vessels filled with oil at the Texas company's terminals were destroyed. The captain of the Gumble was blown into the air a distance of 60 or 100 feet, and instantly killed. Seamen standing a few feet away were uninjured. Following the explosion the Gumble was enveloped in flames. Three barges moored alongside and a tug caught and were soon burning fiercely. The fire then spread to the warehouses of the Texas company, and the Case oil in these buildings was soon sending flames high into the air, threatening destruction to vast property along the water front. At noon the fire was under control. Other shipping in the harbor was uninjured.

PANAMA CANAL LOAN.

Jacksonville Bank Proves a Successful Bidder.
Word has been received by Edward W. Lane, president of the Atlantic National Bank of Jacksonville, from Washington that that institution had been a successful bidder for \$100,000 worth of United States government Panama canal bonds, and was awarded bonds in the amount mentioned for \$102,977.

These bonds constitute a portion of the \$50,000,000 issue floated by the government for continuing and completing the construction of the Panama canal. The total bonds authorized by the act of Congress for Panama canal construction purposes is \$375,000,000, of which the government has sold, including the \$50,000,000 just put out, \$134,631,980, leaving an unpaid balance of \$140,368,020.

Key West Bond Issue.
The Island City National Bank of Key West has submitted a proposition to the board of Public works whereby they propose taking up the bond issue of \$192,000 for street paving in that city. Should the proposition go through, paving will be started within the next sixty days.

MOB LYNCHES TWO GEORGIA NEGROES

Judge Lynch Holds Court In Walton County.

MONROE JAIL IS STORMED

Tom Allen, Charged With Assault, Is Taken From Officers and Riddled With Bullets—Another Negro, Under Suspicion, Meets Death.

Two negroes were lynched in Walton county, Georgia, Tuesday, as the result of the fury of crowds of white citizens, who sought to avenge the criminal assaulting of a prominent white woman in that county some time ago. Tom Allen, who was directly charged with having committed the assault, was hanged three miles out from Social Circle soon after the midnight train brought him from Atlanta on his way to Monroe for trial. Twelve hours later a crowd stormed the Walton county jail at Monroe and secured a negro named Joe Watts, who was charged with having acted suspiciously about the home of Mr. Bud Haw, a prominent citizen, who lives in Blainings district. While no definite charge had been made against Watts further than that of suspicion, it is believed that the lynching of Allen near Social Circle caused the attack upon the jail. Watts was taken to a tract of woods near by and lynched.

It is said that two days ago Watts was found acting suspiciously near Haw's home. Two of Haw's little girls were at work in a field, and Watts is said to have remained around the place all day Tuesday and Wednesday.

DEFENDING HOME.

Ira Green Kills Will Bone of Madison County, Georgia.
While attempting to enter the home of Ira Green, about 5 miles from Dan-lewville, Ga., Will Bone, a young man of this section, was shot and instantly killed by Green Sunday. Immediately after the shooting, Green gave himself up to authorities and is now in jail. According to eye-witnesses, who claim Bone was drinking, he came to the Green home in company with two other young men. Upon entering the house, he was stopped by Green, who asked him away. Bone, it is claimed, refused to leave, and following a few words, an altercation occurred, in which Bone hit Green across the head with a bottle. At this juncture, Mrs. Green participated in the fight, and her husband ran into the house, where he secured a shotgun and emptied the contents at Bone, whose head was blown all most completely off. Both men are members of prominent families in this section.

EDITORS HELD FOR LIBEL.

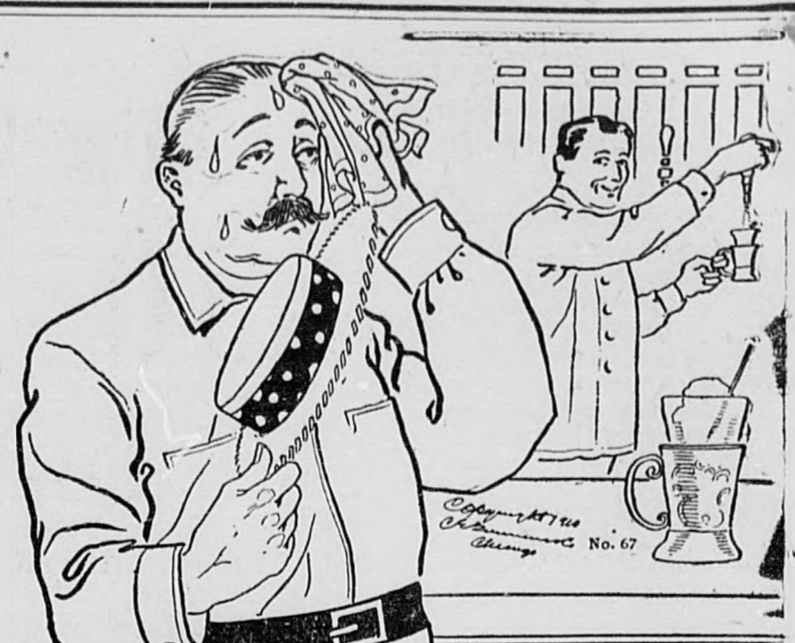

"Private" John Allen Alleges Mississippi Papers Printed False Affidavit.
S. P. Bonney, editor of The Daily Corinthian, A. C. Anderson, editor of The Ripley Sentinel, and B. S. Bernard editor of The Meridian Dispatch, are under arrest at Tupelo, Miss., on a charge of criminal libel preferred against them by former Congressman "Private" John Allen. These editors, several days ago, printed an alleged affidavit that in 1880 the Tupelo statesman and his son broke into a mine, stole a gallon jug of whiskey, Mr. Allen denounces the story as untrue. He immediately had complaints sworn out against the editors who published the item.

SHIPPING PARALYZED.

Striking Stevedores Are Being Joined by Discontented English Sailors.
Shipping in northern ports is paralyzed as a result of the strike of the dock men, who refused to handle freight from vessels owned by the Ship Owners' federation, says a London dispatch. The stevedores are reinforced by striking sailors, and the prediction of President Havelock Wilson, of the International Seamen's union, that all the ports of Great Britain will be tied up if further concessions are not made seems nearer fulfillment than at any time since the marine trouble started. Only the coastwise companies are affected, the trans-Atlantic companies having already settled with the men.

MORE FESTIVITIES.

King and Queen Return to London From Portsmouth.
Another week of coronation festivities was inaugurated with the return of King George and Queen Mary to London. They had witnessed the naval review on Saturday by special train. Their majesties spent Sunday on board the imperial yacht Victoria and Albert, recuperating after the strenuous week preceding. The guests of the king and queen returned Saturday evening.

LUMBERMEN INDICTED.

Secretaries of 14 Associations Charged
With Conspiracy.

The secretaries of fourteen retail
lumber dealers' associations comprising
the lumber secretaries' bureau of
information, and representing dealers
organizations from Pennsylvania to
the Pacific, were indicted by a special
United States grand jury at Chicago
for alleged violation of the Sherman
antitrust act. Three secretaries
of the organization received immunity
for testifying before the grand jury.

Each indictment is in two counts.
The first charges conspiracy among
the retail lumber dealers to interfere
with and restrain trade between the
manufacturers and wholesalers and
the consumers. The second count
charges a conspiracy to suppress and
eliminate the competition that should
exist between the wholesalers and the
retailers and the consumers.

GEORGIA EDITOR
AFTERSenate TOGA

Pleasant Stovall, Of Savannah
Now In The Race
EDITOR OF SAVANNAH PRESS

With This New Richmond In, The Race
Has Assumed Additional Interest.
Much Speculation as to Issue.

With the practical entry into the
race for the United States senatorship
of Pleasant A. Stovall, of Savannah,
editor of The Savannah Press, new in-
terest is lent to the situation.

The campaign, in fact, begins to
take on life.

Is exhibiting qualities ap-
proaching white heat.

That Mr. Stovall is a candidate is
assured by the following statement
distributed to the press Saturday by
his friends:

"Friends of Pleasant A. Stovall,
of Savannah, say that he will en-
ter the senatorial race and allow
the use of his name before the
general assembly. Mr. Stovall has
been considering the matter for
some time, and those who have
seen him the past week believe
that he will be nominated when
names are called for the vote for
United States senator to fill the
unexpired term of the late Sen-
ator A. S. Clay. Mr. Stovall will
be in Atlanta Monday and his
friends will be with him at the
Kimball House when the legisla-
ture opens this week."

This definite announcement from
the friends of Mr. Stovall that he
would be in the race, has stirred
things up some.

In fact, it has aroused an intense
interest in the situation and the sen-
atorial fight is now almost the exclu-
sive political talk in the hotel hotels.

Mr. Stovall is a member of the state
executive committee, and one of the
few members of that organization
who have stood persistently for a pri-
mary election for United States sen-
ator.

He has always, heretofore, been
linked up with the Hoke Smith faction
and supported Mr. Smith in the last
two elections for governor.

To Celebrate Fourth.

The Patriotic Order Sons of Amer-
ica of Key West, will, according to
their usual custom, celebrate the glo-
rious fourth this year on a grand
scale. The celebration committee is
hard at work making preparations for
the event, and the celebration will
excel the one held last year. Among
the many interesting features of the
day will be a grand parade in which
all the secret societies of the city, the
naval militia, the Key West Guards,
the city fire department, city and
court officials and the Cuban Cadets
will take part. Many of the leading
business houses will also have ex-
posed floats in the parade.

SECRETS OF THE MAIN

Chief of Engineers Bixby Says Cause
of Explosion Will Never Be Known.

The secret of the destruction of the
battleship Maine will never be
known, said Gen. W. H. Bixby, chief
of engineers in charge of the work of
raising the Maine, on his arrival at
Tampa, Fla., from Havana.

"The destruction to the vessel was
such," says General Bixby, "and the
deformation has been so great that it
will be impossible to tell whether the
ship was blown up from a force from the
outside or inside. The greatest
force, however, was from the inside,
indicating that the forward magazine
had exploded. Whether this was from a
sympathetic explosion caused by a
torpedo from the outside may forever
remain a mystery."

General Bixby says that unless the
fragment of a torpedo is found there
is no way of connecting some outside
agency with the blowing up of the
vessel.

STOCK YARDS BURN.

Big Plants Crumble In Ashes and Loss
is Estimated at \$750,000.

Fire, caused by the extreme
southeast corner of the big sheds
when the flames were but little larger
than the hand of a clock, spread
through the Fort Worth stock yards
for three hours Sunday afternoon and
destroyed the efforts of the fire com-
panies from the Swift and Armour pack-
ing plants on a half dozen compa-
nies of the city department and hun-
dreds of volunteers destroyed 27
acres of pens, three scaldhouses, two
stockmoot bay and feed barns, the
slaughter sheds, viaduct driveway to
the packing houses and the yardmen's
office.

Manager King, of the stock yard
company, estimates the loss at ap-
proximately \$750,000.

The entire loss is fully covered by
insurance.

L. H. Doty, a member of the Jack-
son here, announced his withdrawal
from the race for lieutenant-governor
of Mississippi, stating that the condi-
tion of his health will not permit him
to make a canvass of the state. With
the retirement of Doty from the field,
only three aspirants are left. They are
R. O. V. V. of Cornwall; Wiley N.
Nash, of Starkville, and T. G. Bilbo,
of Poplarville.

Nashville gets the 1912 convention
of the Southern Commercial Congress.
Secretary R. S. Shannon, of the board

agriculture for the Southern Commer-
cial Congress, Washington, D. C.,
stating that the executive committee
had unanimously decided to hold the
next annual convention in Nashville.

A Baton Rouge, La., dispatch says:
A plague of little red ants has over-
run this section of the state, and they
are so numerous and voracious as to
disturb attention from the advertised
visit in the uncertain future of the 17-
year locusts. However, in this section
the city and nearby towns are complac-
ing bitterly of the red hordes that are
literally overrunning residences.

ping in a hole on the sidewalk, caus-
ing him to fall and break a rib, be-
sides other injuries received.

A Paris dispatch says: Joseph Cal-

formation of a new cabinet by Presi-
dent Fallieres. The delegation of this duty
to M. Calliaux had been freely pre-
dicted since the resignation of the Mon-
cabinet last week.

W. S. McGuffin Runs Amuck
And Creates Reign Of Terror

TRAGEDY AT ANNISTON, ALA.

McGuffin Seriously Wounded Before
Being Captured—McGuffin Is Heav-
ily Guarded, as There Are Fears At-
tempt Will Be Made to Lynch Him.

Policeman John L. Cunningham lies
dead with a bullet through his brain;
Police Chief Nathan Glessen is se-
riously wounded in the hip; Officer
James Oakwood is shot through the
wrist and W. S. McGuffin, a pipe
moulder, charged with having killed
the one and wounding the two officers,
himself in a critical condition from
bullet wounds fired by an unidentified
member of the posse which arrested him,
now housed in the county jail, having
been removed there from the hospital when matu-
rings of a lynching grew to serious
proportions on the streets.

McGuffin is said to have been drink-
ing during the afternoon and about 4
o'clock he left his house near the
Union foundry and, stopping at Trip-
lett Bros', commissary nearby, became
involved in an argument with one of
the proprietors, threatening his whole
family with death.

A call for the police brought Chief
Glessen, accompanied by the sheriff,
McGuffin resisted arrest, firing five
as soon as the officers had entered the
store, first striking the chief in the
belt, the bullet glancing off, but his
next shot took effect in the hip. He
then leaped for the door and ran to-
ward an automobile in which the offi-
cers had come to the scene.

By this time four other policemen
arrived, and with a number of
men and boys, rushed for the fleeing
man, who turned and quickly emptied
his pistol into the crowd, the first bul-
let bowling over Cunningham, killing
him instantly, and the second disab-
ling Oakwood.

Having reached the automobile,
ready cranked, the man leaped in and
was on the point of starting, when an
unidentified man leaped forward and
fired both barrels of a shotgun full
into his breast. The crowd believed
McGuffin had been killed and quickly
dispersed, while the officers took the
injured man to the hospital for atten-
tion.

SAVE WIVES; THEN PERISH.

Tragic Fate of Walter Hahn and H. B.
Chichester, Government Employees.

Drowned before the eyes of their
wives, who were helpless to save
them, was the tragic fate of Walter
L. Hahn, of Springfield, S. D., and H.
B. Chichester, of Eagle Pass, Texas,
government fisheries agents in Alaska,
whose deaths were reported May 31.
Details of the disaster were received
by Fish Commissioner Bowers, at
Washington, D. C.

Chichester and Hahn took their
wives out for a sail from St. Paul Is-
land, Alaska. Their boat capsized in a
squall. After heroic efforts, the two
men succeeded in reaching their wives
and placed them exhausted on the bot-
tom of the overturned boat. They found
the boat sank with their own weight,
and were compelled to hang to the
sides.

Weakened by their efforts in saving
their wives, the strenuous men gave
way, and two almost lifeless wives
were helpless to save them. First one,
and then the other, sank beneath the
city and nearby towns are complac-
ing bitterly of the red hordes that are
literally overrunning residences.

Searchers later found the two
bodies of the fisheries agents, and ac-
companied by the two widows, they
will arrive at San Francisco about
July 14 on the fisheries steamer
Honor.
